Constantly on hand a large assortment of *FURNITURE and CHAIRS*

Paints Oils Japan Varnishes and mixed paint in large or small quantities, to suit customers Glass Putty etc

Bangor May 20 1847 6w

RUST PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metalic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere than common Tin Plate Iron, Zinc &c or any other metal now used for roofing and consequently form a much better and tighter roof, requiring far less frequent repair whilst the first cost is but a trifle more

The subscribers would also call the attention of dealers and workers in metals to the many other purposes to which Iron thus protected can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one third as much as copper and possessing equal durability with that metal

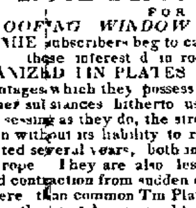

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire, &c they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe) constantly on hand from 16 to 32 wire gauge GEO B MOREWOOD & CO

Nos 14 and 16 Beaver st, New York

The Patent Right for this article has been secured for the United States as well as Great Britain and other European countries and all legal measures will be taken to prevent any infringement thereof at or otherwise

READ THE FOLLOWING.

From the Western Star," a religious periodical, published at Jacksonville Illinois

DOWNS' VEGETABLE BALSAMIC ELIXIR—We are not in the habit of puffing medicines in our columns, but having used the above medicine in our family with gratifying success and being persuaded from all we can learn concerning it, that it is an excellent medicine for Coughs Colds Consumptions Whooping Cough Asthma and diseases of the Chest and Lungs we do not hesitate to give it a cordial notice

Elder Downs, an acquaintance of ours, was himself an invalid for a long time, and was brought to be far gone with the consumption, a disease hereditary in his father's family This remedy was the means of restoring his own health, and no there rests satisfied to its salutary effects upon themselves and families."

From the Missisco (Canada) Post of April 6 1846

REV N H. DOWNS' VEGETABLE BALSAMIC ELIXIR, for all diseases of the Chest and Lungs—From the abundant testimonials of those who have made use of this preparation, we can recommend it to the public with the utmost confidence in its use and efficacy The great danger, also, of neglecting any disease incident to the chest and lungs, should persuade every person subject to such complaints to possess themselves of this valuable remedy "

Sold in Bangor by D BUGBEE and G W LADD

From pamphlets may be had giving a full description of the medicine. 3tawd&w22t6m dec 24

THE FIFTH EXHIBITION

OF THE

Massachusetts Charitable Mechanic Association,

For the Encouragement of Manufactures, and the Mechanic Arts,

Will take place at

FANEUIL AND QUINCY HALLS,

IN THE CITY OF BOSTON,

Commencing on *Wednesday* September 15th, of the present year

The Government of the Association being vested with full powers to make all necessary arrangements, announce our FIFTH EXHIBITION in full confidence that the various and important improvements in every department of Mechanic and Manufacturing industry to which the inventive genius of our countrymen is constantly giving birth, cannot fail to render this Exhibition more valuable, interesting and beneficial than either of its predecessors

We therefore respectfully invite and solicit Mechanics, Manufacturers and Artists throughout the Union, to contribute specimens in every department of labor or skill articles of wood, stone, metal or any other material The products of the loom in silk cotton, wool hemp flax or hair, the ores (work of female industry and taste and in fine any production, made of whatever material which can in any way minister to the comfort or improve men of society

And we hereby offer a Premium of One Hundred and Fifty Dollars to the inventor of such machine, implement or scientific discovery, as shall be deemed by the Judges most important to the well being of mankind Also a premium of One Hundred Dollars for such machine, &c as shall be considered *second* in importance and one of Fifty Dollars for that which shall stand *third* in this respect It being understood that such machine or implement and, if practicable such scientific discovery, shall form part of the present Exhibition

Medals (of Gold or Silver) or honorary Diplomas will be awarded as the articles exhibited may deserve and the Managers pledge themselves that the strictest impartiality shall be observed in their distribution

Articles, to ensure a conspicuous place in the Exhibition, should be sent in season that they may be registered by the Superintendent at Quincy Hall on or before Saturday Sept 11th

The Freight of all articles, machinery, &c, which may be sent for the Exhibition over the various railroads connecting with the city will, if such articles, &c, are accepted and actually exhibited, be refunded by the Association

All who may wish to present machines models or goods, for premium or exhibition, are requested to address Mr JOHN KUHN Secretary of the Association City Building, No 21 Court Square Boston, *post paid* which will meet with immediate attention The Secretary will also furnish on application, gratis, copies of our *General Circular*, containing the precise Rules and Regulations of the Exhibition

By order of the Government
GEORGE G SMITH,
jel5 President

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U S Patent Office Washington

22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein, which will be received and forwarded free of expense and risk to their owners and with all possible despatch The subscriber will prepare Caveats, Specifications Assignments and all the necessary Papers and Drawings, will make researches into American and Foreign Works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay here, as well as all personal trouble in obtaining their patents The experience of fourteen years practice—an extensive collection of rare works documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment

No. 10 Main-Street,

HAS just received an assortment of English Lever Watches in fine gold cases Also a supply of Swiss Lepine and Anchor Escapement WATCHES from a variety of Makers got up in the most fashionable style and warranted to perform well

HALL'S PURE RUBBER MACHINE BELTING,

For Sale by LUKE C CHILDS, 67 Water St,

BOSTON

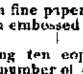

THE above superior article is fast superceding the use of Leather Belting, as for most purposes it is in every way better Its good qualities are that no degree of moisture will affect it and it will bear almost any degree of heat It is of equal width and thickness throughout and requires only one facing in the longest belt Practical mechanics who have used this particular manufacture, think there is a gain of 15 to 25 per cent in the movement of the machinery as it is perfectly flexible and runs with much less strain upon the pulleys and drums

Also for sale as above—HOSE, and other Goods of Rubber material law6m feb 23

EVER POINTED GOLD PENS.

AN assortment of these celebrated Pens, an article superior to any other now in use, being incorrosive, and warranted to give satisfaction to those who at all times require a good pen For sale by STEVENS

HYDE LORD & DUREN,

Publishers and Booksellers, Portland,

PROPOSE to publish the *HISTORY OF MAINE,* from its first discovery to the present time, embracing among other things a view of its Commerce, Manufactures, Agriculture Natural History, Resources and present improvements, in one octavo volume of about 500 pages with Maps and Engravings

The work will be compiled by a gentleman who is well qualified for the undertaking and already favorably known as an author

It will be handsomely printed on fine paper, in a good fair type and neatly bound in embossed cloth, and lettered. Price $2,50.

To persons uniting and taking ten copies or more, or any person ordering any number of copies not less than ten it will be put at $2 25 per copy payable in all cases on delivery The work will probably be completed the first of January next but it is desirable that those who wish to engage any number of copies should send in their orders as early as July next that we may decide whether to go on with the work or not Persons ordering the work will not be required to take it unless it fully equals the foregoing description, nor will we be obligated to furnish it unless we deem the prospect of sale sufficient to warrant its publication

HYDE LORD & DUREN

Whig and Courier.

John S. Sayward,—Editor.

FRIDAY, JULY 9, 1847.

State Convention.

THE WHIGS of the several Towns and Plantations in the State, are requested to send Delegates to a Convention, to be holden at AUGUSTA, on WEDNESDAY, the TWENTY-FIRST day of July next, to nominate a candidate to be supported by the Whig party for Governor, for the ensuing political year, and to act upon any other business that may come before the Convention.

Every Town and organized Plantation is requested to send one delegate—towns having one thousand inhabitants, by the census of 1840, are requested to send two delegates—towns having two thousand inhabitants are requested to send three, and for each additional thousand inhabitants to send an additional delegate.

Per order of Whig Legislative Committee.

Augusta, June 18, 1847.

☞ The Kennebec Journal states, on behalf of the Whig members of the Legislature, that at the forthcoming Whig Convention, the subject of a *Presidential nomination* will be considered, and the selection of two Delegates to the National Whig Convention.

The Foreign Trade of Bangor.

The foreign trade of our city is generally esteemed as too small to receive attention as a separate department in statistics. We have recently made inquiry at the Custom House, and learn that the foreign clearances from this port from the 1st of May to the 30th of June, (the time the office has been in operation,) are forty-eight. The entries at the Custom House in the same time, are one hundred and three.—Foreign imports, thirty-one thousand dollars;—duties, eight thousand dollars.

It will be seen by the foregoing that our citizens are doing a little something in the way of foreign trade. This trade will increase, and thus as capital increases here our business will be likely to enlarge, and Bangor move gradually but certainly onward.

☞ The great temperance community of Skowhegan and Bloomfield, the Martha Washingtons, Sons of Temperance and others, united for the celebration of the Anniversary of Independence on Monday last. The orator on the occasion, Rev. Mr. Rand, of Orono, instead of addressing them upon the vitally important theme of temperance, outraged all propriety and the moral sense of his hearers, in occupying the time in defending the present war with Mexico, which is waged for the purpose of acquiring territory on which to establish American slavery, and to gratify the ambition of James K Polk.

☞ The President was received at Augusta in a style of great splendor. He arrived there at midnight amidst a display of fireworks, the firing of cannon, and a beautiful illumination.—On Saturday he was escorted to the State House, where he was introduced to each member of the Legislature. After several complimentary speeches and replies, the President and his suite proceeded to the Augusta House, where a sumptuous dinner was provided, where a select party of forty had the honor of dining with him.—He returned to Portland on Saturday night.

☞ Jerome & Co have established a package Express between this city and Houlton in connection with the railroad, the up river steamboat, and stages. This will ensure safety and promptness in the delivery of all packages, and lessen the expense and trouble to the people along upon the route. We noticed recently in Massachusetts that much of the business between the interior towns and Boston which was formerly carried on by the persons going themselves to Boston is now done at a small expense through Express men. We think the system worthy of being adopted on our river, and this new arrangement will aid in this.

☞ We record to-day the departure of a good man from earth to heaven. Dr A Johnson, of Brewer, who had a limb amputated in Boston a few weeks since, and who for some time was supposed to be getting better, has sunk under the effect. He was a man of purity of mind and uprightness of conduct, and has left a large and worthy family, to whom he was greatly attached, to mourn his departure.

☞ The New Orleans Delta states that despatches from Washington have passed through that place for both Gen. Scott and Gen. Taylor, which are said to be of a character to regulate the conduct of our Generals, in case of some amicable arrangement, and directing them to continue their military movements should our efforts to make peace prove unavailing.

☞ Vegetation is on the race, under the influence of the best of summer weather. Our farmers have commenced cutting their English hay. The crop will probably turn out about an average. The yellow and white weed have come forward in advance of the herds grass and much of the latter must be cut before it is in bloom. Other crops are now very promising.

The President's Celebration.

The Advertiser says that Mr. Polk is the first President of the United States who has celebrated the Anniversary of their Independence by passing through five of those States. On the 5th inst. he honored Maine, New Hampshire, Massachusetts, Rhode Island and Connecticut with his presence.

☞ THE SWISS BELL-RINGERS, whose sweet chimes have delighted the people in all the principal cities in our country, will give concerts in this city on Monday, Tuesday and Wednesday evenings next, at Market Hall. This will be a highly interesting and novel entertainment, and will receive the attention and applause of our people, beyond a doubt.

☞ A promising lad, aged about ten, son of Mr —— Foster of Canaan, was drowned while in swimming, on Sunday, the fourth. The Peoples Press says, 'two other boys narrowly escaped with their lives. It would seem that more boys are drowned while swimming on the Sabbath than on any other day in the week.'

Three hundred and ninety-six Freewill Baptist ministers have signed a protest withholding Christian fellowship from those "guilty of the sin of slavery". So says the Morning Star, at Dover, N. H.

☞ Two prisoners, Adams and Smith, escaped from the Massachusetts State Prison on Tuesday afternoon last.

☞ The mercury in the thermometers in this city yesterday and the day before, ranged from 94 to 98 degrees in the shade.

By Magnetic Telegraph.

FROM NEW YORK.

From the Boston Journal.

Tuesday, July 6, 2 P. M.

The U. S. revenue cutter Bibb, from Charleston, via Norfolk, for Boston, arrived at this ports this forenoon.

Later advices from California state that affairs remained quiet.

Cols. Mason and Kearney were at Monterey, and expected to leave for the United States in July.

The steamer Financier, with Government stores, sunk at the mouth of the Ohio river recently.

A disgraceful riot occurred at Annapolis, Md. on the 5th, between one or more military companies from Baltimore, and the citizens of that place. The combat was carried on with guns, brickbats, and whatever articles the belligerents could lay their hands upon, and resulted in the wounding of several persons, some of them supposed mortally.

Markets—The flour market is dull. Sales of Genesee at $6,18¾@$6,25; and Western at $6a $6,12½.

Sales of mixed corn at 65 cents per bushel; and prime yellow at 75 cents. Quotations are, however, nominal.

Sales of oats at 47 cents per bushel.

Pork has an upward tendency.

The cotton market is inactive.

Stocks—The Stock Market is dull. Sales of United States Sixes 1856 at 106¼; Treasury Notes, Sixes, 107½; Norwich and Worcester, 54½; Reading, 67¼; East Boston Company, 17¾, Long Island, 33¼, Reading Bonds, 1850 76¾ (asked)

Arrived.—Ship Zurich, (packet) from Havre; barque Beaver, from London; schooners Hendrick Hudson, from St Domingo; Mary Brooks, from Sagua.

Escape of Midshipman Rodgers probably.

A letter from one of the Arkansas volunteers, now treacherously detained as a prisoner in the city of Mexico has the following paragraph—The Lieut. referred to must be Midshipman Rodgers.

"There was a Lieut. brought to us a prisoner from Gen. Scott's army the other day, and charged with being a spy. He was under the charge of Gen Ampudia and a guard of Mexican officers, and brought in the mail stage.—When they arrived they were so overjoyed at meeting their friends, that whilst they were hugging and kissing each other the Yankee left for parts unknown, and has not been heard of since."

British Mediation in the Mexican War

In the House of Commons on the 11th of June in reply to a question from Dr Bowring, Lord Palmerston said that an offer of mediation on the part of Great Britain between Mexico and the United States had been made by the former as well as by the present Government, but that as yet it had not been accepted by either of the belligerents.

Boston, July 5 1847.

To the Editor of the Whig and Courier:

I saw with surprise in your paper of Thursday last a laudatory notice of the Adams House commending it to public patronage.

The enclosed bill of fare justifies your remark that 'their spirit seems to pervade every part of the establishment' introducing as it does several dozen of the spirits that pervade it by name.

I am persuaded you agree with me in attaching something like the same importance to changing the fashion of using intoxicating drinks to sustaining common schools, and also in believing that fashion to be based to a greater extent, upon the influence of a few, such houses as the Adams House in each of our cities.

I appeal then to your judgement whether commending such houses is consistent with the character of a friend of schools, Lyceums, Mechanic Associations, but true democracy which aims at the elevation of the whole community, in a word whether it is consistent with the character which, as far as I know, you have uniformly maintained. X.

☞ The above comes to us from a source entitled to our highest consideration. The 'Bill of Fare' alluded to displays a long and tempting list of choice dishes and delicacies, and also, and this is just cause of regret, a list of wines and malt liquors, ranging in price from one dollar to six dollars a bottle.

We had hoped that public opinion by this time would have done away, in New England, with liquor drinking. We wish ever to give our influence in favor of temperance, and in so wishing, we would warn every man against moderate drinking, since its general and almost inevitable tendency is to indulge immoderate drinking.

There is great peril attending the young men of our country at the present time, in reference to intemperance. They know the sad sequel of drinking, but fashion and temptation are too much for them, and they yield to their seductions. We would utter to them our word of warning, and implore them to flee from the cause of these slavish chains of vitiated taste.

☞ We tender our thanks to Col. Maxwell, conductor on the Eastern Rail Road, and to the officers of the Governor, for papers received yesterday, in advance of the mail.

☞ Capt Coburn have very good houses at his Temperance lectures in Market Hall. His style of speaking is cross many of our people and his narrations of personal experience produce many thrilling emotions. He lectures this evening.

☞ Lieut Seth Williams of Augusta has received from several citizens of that town a beautiful sword, presented to him at the arsenal on Monday evening last. The presentation speech was made by J. W. Bradbury Esq.

Maine and Massachusetts own in common within the limits of the county of Aroostook, thirty-four townships of surveyed land, and 1,200,000.

☞ Thanks to Joseph C. White, Esq for the Boston Journal of Wednesday, received yesterday in advance of the mail.

We thank our correspondent "A Father." for his kind word of encouragement.

Five of the sweetest words in the English language begin with H, which is only a breath; Heart, Hope, Home, Happiness, and Heaven. Heart is a hope-place; and that man sadly mistakes who would exchange the happiness of home for any thing less than heaven.

Taylor and the Democrats.

A great Taylor meeting was held at Harrisburg, Pa, on Saturday, 26th ult, John M. Read and Richard Vaux, prominent democrats of Philadelphia, addressed the meeting. The resolves are strongly in favor of Gen. Taylor as the Democratic candidate for the Presidency in 1848. The meeting was large, and excited a good deal of attention.

☞ The New-Yorkers are about to have an arrival extraordinary in their harbor, in the shape of a huge *Junk* from Canton, China. It will be recollected that an account of the outfit of this vessel was published in the papers not long since. If we recollect aright, she was built by some shrewd Jonathan, at Canton, and stored with all sorts of curiosities, even including a Chinese juggling and theatrical company, for exhibition in New York harbor. She is of an immense size, and of course of very unwieldy proportions. A vessel recently arrived at Baltimore, reports having spoken on the 29th ult., 200 miles off Cape Henry, "a Chinese Junk, with the Emperor's flag flying, three hundred days from Canton, bound to New York." This has been a great and perilous undertaking, but if our 'brother Jonathan' does not reap a rich reward for his enterprise, we shall miss our 'guess.'

☞ The Whig Central Committee of the State of Ohio, in a late address to the Whigs of that State, use the following language:

"A word on the subject of the Presidential candidates. Far be it from us to debar any man, even if we had the power, from aspiring to the highest office within the gift of the people.—Neither would we make null any success, however brilliant, a test of qualification. And while we condemn and reject no man, so neither do we propose any manner connexion with the Presidency. We are pledged to *no one*—we are committed to *no one*. We do not think the present a proper time to select a candidate. Let us re-assert our principles, and declare the policy on which we intend to act."

The President's Progress.

The President left Portland according to previous arrangement on Monday morning; dined in Portsmouth; stopped a few moment at Newburyport, and reached Beverly at 3 o'clock, where he was met by a committee from Salem. A regiment of infantry and a company of artillery had been ordered out to receive him in Salem, the children of the schools were arrayed on either side of Chesnut st. awaiting his arrival, and various other preparations were made for the occasion. But on reaching the line of Salem, it was with considerable persuasion that the President could be induced to enter the barouche which, with its six fine horses, was in waiting. He finally did, after a neat address from Mr Cabot, the Mayor, and drove at a rapid rate through the town, despite of the loud and profane oaths of one of his suite, and the threats of another. Thousands of people were in the streets to welcome the chief magistrate, or at least to see him; but he went with such rapidity through the streets, that multitudes were disappointed. It was literally what a good woman called it—the President's race through Salem. In less than thirty minutes from the time he arrived at the line, the President was again in the cars, on his way to Boston.

In Lynn he was stopped to hear an address from J. Stickney, Esq. and to ride from one depot to the other.

The President arrived in this city between 4 and 5 o'clock, yesterday, and immediately started for the Providence Depot, having dispensed with his military escort. He was accompanied by Ex-Governor Morton, who at 1-4 past 6, introduced him to the citizens of Taunton, who had assembled to the number of 3000 to receive him. The President was expected at about 5 o'clock and a procession had been arranged but the late hour of his arrival forbade any ceremony further than a welcome through S. L. Crocker, Esq to which the President made a short reply. Guns were fired, the President shook hands with a number of the citizens and then took a special train for Fall River and New York by the steamer Bay State.—Boston Traveller

Shakspeare's House.

The present proprietors of the place of our great poet's birth, are, it appears, compelled to sell it, by the terms of the will of a former owner. The house is a freehold, and is valued at something like £2,000. This valuation has been formed on the number of visitors. In 1846 it was calculated that something like 3,000 people had visited the house, though not more than 2,500 had entered their names in the book kept for the purpose. The house will be sold by auction in the course of the summer, and one or two enthusiastic Jonathans have already arrived from America, determined to see what dollars can do in taking it away. The timbers, it is said are all sound, and it would be no very difficult matter to set it on wheels and make an exhibition of it. We hope and trust that no such desecration awaits it. Wholly irrespective of Shakspeare, as one of the few existing examples of an English yeoman's residence of the reign of Queen Elizabeth, it merits to be preserved and retained among us

[English paper.

A son of Erin gave the following toast;—"Here's wishing ye may niver die, nor nobody kill ye, until ye knock yer brains out against the silver knocker of yer own door."

"Pa, has dogs got wings?" "Wings no, my child. Don't you know better than that?"—"Why, pa, this paper says a big dog 'flew' at him and bit him. So I guess dogs is got wings too."

"Isn't it time to think about getting up?" said the wife, as she rattled at the door. "Yes, my dear," replied the husband, "I have been thinking about it an hour or more."

Fog or Mist.

The phenomenon of *Fog* or *Mist* occurs at all seasons, and it appears always under the peculiar circumstances explained by Sir Humphrey Davy. His theory is, that radiation of vapor from land and water sends it up until it meets with a cold stratum of air, which condenses it in the form of mist—which naturally gravitates toward the surface. When the radiation is weak the mist seems to lie upon the ground; but when more powerful, the stratum of mist may be seen elevated a few feet above the ground. Mist, too may be seen to continue longer over the water than the land, owing to the slower radiation of vapor from water; and it is generally seen in the hollowest portions of ground, on account of the cold air, as it descends from the surrounding rising ground and mixes with the air in the hollow, diminishing its capacity for moisture.

Mist also varies its character according to its electric state; if negatively affected, it deposits its vapor more quickly, forming a heavy sort of dew, and wetting every thing like rain; but if positively, it continues to exist as fog, and retains the vapor in the state in which it has not the property of wetting like the other.

The fogs in hollows constitute the true stratus cloud. We see vapor at a distance in the atmosphere, and call it cloud; but when it sinks to the earth, or will not rise, and we are immersed in it, we call it mist or fog. When immersed in a cloud on a mountain, we say we are in a mist; but the same mist will be seen by a spectator, at a distance in the valley, as a beautiful cirro-stratus, resting on the mountain.

The magnifying power of mist is a well known optical illusion. Its concealing and mystifying effects may have been observed by every one;—and its causing distant sounds to be heard as if near at hand, may also have been noticed by many.—Stephen's Book of the Farm.

General Improvements and the General Government.

Locofocoism, especially in its Southern phase, finds the Constitution a marvellous convenience. It cherishes it as certain barbarous tribes cherish their Deities, worshipping or whipping the empty image as suits the whim of the moment. The rock-bound scruples of Southern construction open, at the utterance of the "sesame" *Texas*, and a thousand licentious outrages rush through the portals: but again closed, it is rock and nothing else, against every beneficent appeal in favor of the power of the General Government to advance the arts of peace and the interests of virtue. Hannibal, it is fabled melted the rocks of the Alps with acids; Polk resolves the granite of the Constitution into jelly, with blood. Our national charter is waived in favor of a Presidential partiality for a war;—but, when millions ask the protecting energies of that instrument to sustain their industry and promote their happiness,—it is time to pause and reflect whether there is not a cob-web in the way of such a demand.

The power of the general government to make improvements of a national character, is sustained by a weight of authority that should rebuke all opposition. Whether we consult the views of the various administrations of the Union, the votes of Congress, or the opinions of the Supreme Court, we cannot doubt that the plain and patriotic view which the large majority of the people of the country have taken on this subject is amply sustained. Locofocoism, in power, has recognized the principle whensoever it ministered to its wishes; and has denied it only when the application of the rule has proved distasteful. Its constitutional creed is comprised in the plain proposition that all is legitimate which is agreeable to the executive, and all is unconstitutional that is otherwise.

The Memphis Convention, though suspected, not without reason, of ulterior objects, did the country good service. It ascertained upon high authority, that all rivers running through slave states are "inland seas," and that these insular and prolonged Atlantics are proper objects of national protection. This is a great point gained; and though the nation acknowledge its ignorance of the process by which this fact is ascertained, it is not the less grateful for the result. There are, it must be admitted, those who regard this singular admission as a bubble blown up from the seething cauldron of Southern absurdities. Great minds, like great oceans, in their most magnificent storms only scatter their strands with weeds and carrion. It is a pitiable thing to see a great genius reduced to such a lowness as to be compelled to resort to a trickey word for his redemption from the reproach of political insanity.

The Memphis Convention, with all its absurdities, taught the West and South-west to look, with hope and trust, to the practical influences of the great Whig doctrine of national improvement by the national government. Under these awakened influences, the law of the last session, for the protection of our vast internal commerce was passed. It was passed by the votes of Whigs, sustained by the more virtuous and independent of the administration party, and the question was regarded, for a time, as settled.—But the veto of the President aroused the country from its false confidence. That imperial document, feeble in its tone, false in its reasonings, inconsistent with the policy of the party and belligerent with the positions recognized by the President, was met with a resistance that swept every effort of official toadyism before it. Throughout the giant West, no defence was whispered. But the wrong was done—it was done to accumulate funds for the conquest of Mexico, and the war, in addition to its victims abroad, had its sacrifices at home. The mariners of our western waters were left to their fate: and floating fragments of wrecks, and the bloated bodies of the drowned, tossing their lifeless arms with the motions of the waves, and with their mangled faces turned upwards to the sky, accused the administration with a voice more potential than that of any living opponent.

That indignation, intense and universal, has been excited, is not strange. A great movement has resulted from this outrage upon the feelings and interests of the country. A call has burst from the mighty heart of the West for a Convention that may speak, as with one voice, the will of the vast territory watered by the tributaries of the Mississippi and by the Lakes. The Convention will meet at Chicago, and if we may conjecture its numbers from the universal feeling which, upon a recent visit to the West we found expressed in all sections, from the Ohio to the Lakes, in its favor, we would anticipate the gathering of twenty-five thousand business men of all parties, in this protest against the policy of the present administration. The Convention will recognize no distinction referring to sectional divisions or interests, for the cause belongs to all. Its councils, in which many of the present men of the nation will actively participate, will tend to impress upon the country the identity and community of interests of the East and West. To know the West, it must be seen—for its statistics, startling as they are, convey but a feeble idea of the gigantic energies of that extraordinary region.—Wonderful as are there the energies of nature, they are not more wonderful than the indomitable enterprize and far-reaching genius and power of the race which inherits that singularly gifted land. The trade of the West, upon the vast arteries of our hemisphere, on the Mediterranean of the North, already transcends the wildest dreams of the most visionary prophet.—The Lakes are whitened with sails, and the "blue above and the blue below" is never without its dark and far reaching cloud of smoke from the numberless steamers that plough these spring-fed and chrystal seas. Little more than a century and a half has elapsed since De La Salle first launched his vessel upon Lake Erie. In 1812 there were only twelve vessels upon all the lakes; and in 1818 the first steamboat floated upon these waters of the wilderness.—Now every highway of the Northwest is thronged. And who is he that would shut out this vast domain, with its boundless wealth and its multiplying millions, from the markets of the world? Who will assert that the interests of this teeming region, feeding as it does the famished of every quarter of the earth, are not national; and that its outlets to the ocean are local and limited, and beneath the care of the nation? The commerce of the Union has, within the past year, derived its main supplies from these repudiated channels; and the interests scorned by the President are these which have upheld the prosperity of the country. As well might the President endeavor to shut out the sun, as to darken the face of the government against an interest so wide and mighty.—Philadelphia N. American.

FIRE!

☞ There will be a meeting of Engine Company No. 5, at their Hall, on *Monday Evening* next, July 12th, at 8 o'clock, for special business. All members are requested to attend, and all demands against the company to be presented forthwith. Per order.

J. A. WHITMAN, Ass't Clerk.

Bangor, July 9, 1847. 3t

FOURTH OF JULY.—On this day of festivity and joy, when we are all prone to indulge in the good things of this life, and not unfrequently to excess, let us not forget that overloading the system, either with food or drink, especially at this season of the year, is often attended with the most serious consequences. If any, however, should inadvertently overstep the bounds of prudence, they should bear in mind that Wright's Indian Vegetable Pills are certain to prevent all evil results from impropriety of diet; and because, they thoroughly cleanse the stomach and bowels from those billous and corrupt humors which are the cause of all colic pains, dysentary, cholera morbus, and other disorders of the bowels.

Wright's Indian Vegetable Pills also aid and improve digestion, and therefore give health and vigor to the whole frame, as well as drive disease of every kind from the body.

Beware of Counterfeits of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

The genuine for sale by DAVID BUGBEE, who is the only authorized agent for Bangor

New England Office—108 Tremont street, Boston.

Washingtonian Temperance Gathering.

The County Washington Society at their last annual meeting in February having adjourned to meet again on the 17th of June, it has, for various reasons, been determined to defer said meeting until

SATURDAY, the 10th day of JULY, 1847,

on which day, at 10 o'clock A.M., such meeting will be assembled

AT THE CITY HALL, IN BANGOR.

Washingtonian and other Temperance Societies, are requested, without limit to numbers, to be represented fully at said meeting, and all real friends to total abstinence from intoxicating drinks, are invited to be present on the occasion.

By Order of the Standing Committee.

Bangor, June 12, 1847. daw

Asthma.

Many persons suffer much from this distressing malady. From what we have seen and heard of its effects in such cases, we feel great confidence in recommending DOWN'S ELIXIR to all so afflicted, as the surest and safest remedy in use for that and other lung complains. The genuine article for sale in this city by

j 10 3w D. BUGBEE, and G. W. LADD.

FOSTER'S MOUNTAIN COMPOUND

seems to be the only article for the Hair, in which the public has placed implicit confidence. Its "powerful tonic" and peculiar efficacy in the reproduction of the hair, aside from its virtues in giving richness and a *lasting moisture*, longer than any thing else can, give it a precedence with both ladies and gentlemen, over every other article heretofore invented for the toilet.

Nothing is like it in appearance or composition. It is adapted pathologically to the cure of all diseases of the hair and skin. An essay with an illustrative drawing, showing the structure of the skin and hair, with directions, is enclosed with each bottle. Sold by Messrs. A. P. Guild and Geo. W. Ladd, (Druggists,) only agents.

See Advertisement and Caution in another column.

Olympian Festival!

FOR THREE DAYS ONLY.

SANDS, LENT & CO.'S

AMERICAN CIRCUS!

[Second season since their tour in Europe.]

COMPREHENDING in one extensive and magnificent entertainment, all the varied exercises and talent of the Arena, the Gymnasium, and the Menage, embracing the most beautiful stud of Horses, and the most costly and brilliant equipage to be found in all Europe or America—being collected from the most celebrated stables of the old world, during a seven years' tour of the proprietors.

Among the most commanding features of this troupe are, the thorough-bred English horse MAY-FLY, who dances in an inconceivably graceful style, and in perfect time with the music, all the fashionable Pas Seuls, after the manner of the most popular Parisian artists.

The TWIN PONIES Damon and Pythias, in their innumerable Feats, Waltzes, Tricks and Exercises.

The scientific and wonderfully trained FIGHTING PONIES, Deaf Burke and Tom Spring.

The diminutive, elegantly formed, and gracefully taught fairy steed CINDERELLA, purchased at Franconi's, Paris, and at Pastley's royal Amphitheatre, London, at immense cost.

The high bred and thorough Arabian POLKA HORSE Pas-Temps.

And the most beautifully marked, highly trained, docile and sagacious LILLIPUTIAN TROUPE of 12 Ponies—all of which are for the first time presented to the American public, and will be pronounced by all who witness their achievements to be the richest novelties and the highest exhibition of art and excellence in equestrianism that wealth and enterprise ever succeeded in introducing into this country.

Prominent and in bold relief to any similar exhibition ever presented to the public, stand the performances of Mr. R. SANDS and his talented Children, Maurice and Jesse, forming a new school of Gymnastics, combined by a series of classic passes, evolutions, groupings and flights of aerial gravitation, which will command the admiration of the scholar, poet, painter and sculptor.

First in importance in equestrian display, is the juvenile rider, Master HERNANDEZ, whose achievements on horseback excel in grace all who have ever preceded him in this country, styles him the "Ducrow of America."

Master WALTER AYMAR, whose daring, graceful performances are second only to Hernandez.

The great scenic rider, Mr. MOSLEY, will exhibit his original character of the Pickwick Family.

Mr. RUGGLES, in his great performance on the slack rope.

Exercises by India Rubber Man, H. Conover.
Clown to the Ring, J. Pentland.
2d Clown and Buffo Singer, S. Lathrop.
Equestrian Manager, Mr. Mosley.
Master of the Ring, Decamp.

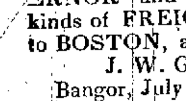

☞ Price of admission—Box and Pit, 25 cents; positively no half price.

The above Circus will be exhibited—

In STILLWATER, on Wednesday, August 4;
In OLDTOWN, Thursday, August 5; and
In BANGOR, Friday, Saturday and Monday, August 6th, 7th and 9th—on Oak st. rear of Penobscot Exchange.

W. T HOPKINS would tender his compliments to his very numerous patrons, for their liberal encouragement during the term of his **Juvenile Singing School**, (now closing,) and respectfully informs them that the *Second Term* of his Musical Arrangement will commence on Wednesday July 7th, at 2 o'clock P M, at New Market Hall.

Having been quite successful in the arrangement made at the commencement of the last term, Mr H feels confident that under the same arrangement, improved by the experience of the past, the ensuing term will be still more successful and satisfactory.

TERMS
Each School will be required to raise the sum of Ten Dollars, (this sum to be raised by a sale of tickets at 25 cents each,) which will secure a course of lessons of twelve weeks—three per week—one at School Room where a thorough course of instruction will be given in the elementary principles,—and two at New Market Hall, where attention will be given wholly to the cultivation of the voice.

All who wish their children the pleasure of enjoying the blessed poetry of life, will of course send them where they cannot fail to secure to them selves this pleasure through the meandering and rugged course of life.

Good order and faithful instruction is pledged.
June 29 3w

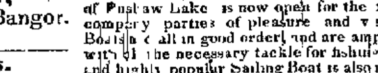

Salt-Water Bathing
AT BELFAST.
THE subscriber having made arrangements to keep open the BATHING HOUSE this season, in Belfast, would respectfully inform the public that he has thoroughly renovated and repaired the establishment and he flatters himself that by care and attention to neatness in the premises, he shall merit and receive that liberal patronage which an enlightened public ought to bestow on such an establishment.

Invalids who visit watering places for the benefit of the warm bath have every inducement to make Belfast the watering place of the season. The village is of itself beautiful, besides having numerous lovely drives into the country. Excursions on the delightful Passagassawakeag Bay, and among its beautiful islands are of frequent occurrence and for whiling away the tedious hours of a stormy day there are numerous resorts for amusement in and about the village. These amusements while they serve to divert the mind, will also strengthen and invigorate the body.

The rooms will be open every day.
For Ladies—*Tuesdays and Thursdays*
For Gentlemen—*Mondays Wednesdays, Fridays and Saturdays.* JAMES M TORREY
Belfast, June '47 dawtf—j28

MUSICAL CONVENTION!
THE time having arrived when the friends of Vocal Music should be doing something for its advancement in the Eastern part of this State and believing that much is not likely to be accomplished without a united effort among the friends of Music it is therefore proposed that a Convention be called to take under consideration the subject, and devise the best means for its promotion and advancement. It is well known that the subject of Music has been neglected in this part of Maine so much so that it is decidedly in the rear of its advancement in other parts of the State, therefore it is further proposed that the Convention take into consideration the feasibility of establishing a Class the ensuing Autumn, at Bangor, for the benefit of Teachers and those who wish to advance themselves in a knowledge of this delightful science—All persons who feel an interest in this cause are respectfully requested to assemble at
NEW MARKET HALL,
IN BANGOR,
On Thursday, the 15th of July inst, at 10 o'clock A M to act upon the above named proposition and all other business which may come before the Convention. Per order
Bangor July 2, 1847 daw

NOTICE.
CASH will be paid by the subscriber for CEDAR SLEEPERS, at the Steamboat Wharf, of the following dimensions viz 7 ft 6 in in length not less than 6 inches thick and not less than 5 inches face and sound.
Also Cedar Sleepers 8 feet in length not less than in hes thick and not less than 7 inches face, and sound.
Bangor, July 3 1847 J G KINSMAN davlm

PUSHAW HOUSE.
THE public are informed that the delightfully located PUSHAW HOUSE on the borders of Pushaw Lake is now open for the reception of company parties of pleasure and visitors. The Boats are all in good order, and are amply provided with all the necessary tackle for fishing. The large and highly popular Sailing Boat is also in readiness.

Visitors may be sure of finding good fare, and every means put in requisition to render a visit to the LAKE one of the most delightful imaginable.

This House is mainly designed to accommodate pleasure parties from the city and large parties may be sure of receiving the most gratifying attentions and of having DINNERS prepared at short notice, and of spending a day in a variety of exciting sports, where their comfort will be promoted.
BURGISS & GOULD

ADAMS HOUSE,
No 371 Washington Street,
BOSTON.
L. & W T ADAMS beg leave to inform their friends and the public, that they have taken the above new and splendid Hotel.

THE ADAMS HOUSE was erected during the past season to supply an obvious demand for increased and superior accommodations in this City. It is located on Washington street, within five minutes walk of the great Southern and Western Rail Road Depots, and the business sections of the City. It is adjacent to the Park and the Cupola commands a beautiful view of the Harbor and the adjoining towns.

The House has been constructed after the most approved plans, with all the modern inventions that minister to the comfort and convenience of the Traveler, and the Constructor's long experience in Hotels has enabled him to introduce many improvements which are as yet, peculiar to this Establishment. It is built of Quincy Granite, and contains *one hundred and fifty Rooms,* conveniently arranged in suits and single apartments, well ventilated, and supplied with an abundance of pure soft water.

The Furniture was made to order from the best patterns, with special regard as well to comfort and convenience, as luxury and splendor.

Our Table will be supplied with all the luxuries of the season and we pledge ourselves that the best rarities of the season shall be found upon it.

We have devoted unusual attention to the selection of Servants, and our Guests may rely upon prompt and polite attendance.

Porters will be in readiness at the various Depots to take charge of baggage, and provide Carriages for our Guests.

The Proprietors trust by strict attention to the wants of Guests to merit a share of patronage, assuring all who may favor them with a visit that nothing shall be wanting on their part to render the ADAMS HOUSE second to none in the Union.
L. & W. T. ADAMS, Proprietors.

COMMERCIAL HOTEL,
Corner of Wall and Water Streets . . . Bangor

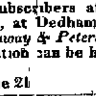

THE subscriber would respectfully give notice to his friends and the public that he has taken a lease of the spacious and elegant building on the corner of Wall and Water streets and opened the same as a Hotel. It has been fitted up in superb style—contains several fine suits of rooms, parlors and chambers—and altogether will compare favorably with any hotel in Maine. Its locality is central and convenient for persons visiting the city on business and for those intending to take the steamers, being near the steamboat landings.
☞ Good Stabling, and a faithful Ostler always on hand. NORMAND SMITH

☞ No pains shall be spared to suit. Call and see. These goods can and will be sold as cheap as can be bought in the city. june 7

WHOLESALE
Straw Bonnet Manufactory.
MRS. R. JORDAN,
No. 38 Main street, (Up Stairs,)
SIGN OF THE GOLDEN BONNET,
BANGOR;

HAS the pleasure of informing City and Country Merchants, Milliners, and dealers and purchasers generally that she has obtained a large stock of the richest foreign Straw Braid, and has engaged extensively in the manufacture of
STRAW BONNETS
to supply the trade. Purchasers are invited to examine her stock of *READY-MADE BONNETS,* which for numbers, durability, elegance of form, clearness of color, fineness of finish, and brilliancy of appearance, cannot be excelled, and are rarely equalled, even in the largest establishments in other States.
Among her assortment are Bonnets suitable for the dignity of age, the becoming rank of fashionable life, or for the wear of youth. The following are some of the styles of Braid from which they are manufactured:—
Florence, Rutland,
Bird's Eye, Adelaide,
French Straws, China Pearl,
Coburgh.
These Bonnets manufactured by Mrs JORDAN, are from Braids brought to this city in the original packages, without having been culled. They are made in the latest style of form, and are in every respect like the first quality of Jenny-made Bonnets for the New York city wear.
Mrs. JORDAN, having had great experience in New York, in years past, in the manufacture of Straw Bonnets, and now having connections there in the business, and believing that the Bangor people could be better served with Bonnets by the establishment of a Factory here for making them, has been at great expense for stock, machinery, and help, and having completed her arrangements so far as to be able to supply the market with desirable Bonnets, now asks of the public to sustain this branch of Home Manufacture, assuring them that in *quality* and *price* they shall have no occasion to complain.
Bonnets Cleansed, Bleached, Repaired, and elegantly finished, at very short notice. A new process of Bleaching has recently been discovered in New York, which is much admired; and which Mrs. JORDAN has introduced into her Factory, it gives the Bonnets a remarkably clear and beautiful appearance.
Mrs. JORDAN returns her sincere and hearty thanks to her numerous friends, for their generous support and encouragement. She hopes by her enlarged business to give them all greater satisfaction in the quality and price of her work.
Bonnets fitted and trimmed in all the latest modes, and most desirable styles, at short notice, and reasonable prices.
☞ Don't forget to call at **38 Main Street,** up stairs, at the sign of the GOLDEN BONNET. 1awd&w

FOSTER'S
MOUNTAIN COMPOUND!
FOR THE HAIR.
IS AN ARTICLE IN WHICH THE PUBLIC MAY PLACE THE UTMOST CONFIDENCE.
The Mountain Compound
is entirely different from any thing ever before introduced. It combines several important medicinal qualities that no other article of the kind does, and which make it doubly efficacious, whether as a restorative, or for removing DANDRUFF, ERUPTIONS, or DISEASES from the skin of the head.
Its powerful Tonic and Lustral qualities give great beauty and richness to the texture of the Hair; and ladies and gentlemen of Boston, Portland, Lowell, and other places, have testified to a very great extent, to its admirable adaptation for dressing, softening, curling, and keeping the HAIR MOIST A GREAT LENGTH OF TIME—longer, much longer than any thing else can, and no substance is left to act in any fabric however delicate.
Every individual who has bought one bottle of the Compound speaks well of it, and has ordered more; and the proprietor feels confident to recommend it from that fact.
☞ For testimony see small pamphlets.
CAUTION.
N. B. None genuine unless signed on the wrapper H. W. Foster, in his own hand writing; and also these words are lawfully inscribed, occurring hair-tight, and printed on this back of the wrapper over the fold—"Entered according to act of Congress in the year eighteen hundred and forty-six, by H. W. Foster, in the Clerk's office of the District Court of Massachusetts." Also, unless there are impressions on the bottles blown in the glass of FOSTER'S MOUNTAIN COMPOUND, it is not genuine.

KELLEY & CO.'S
SARSAPARILLA!
FOR SCROFULA, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, COSTIVENESS, HUMORS, RHEUMATISM.
THIS valuable medicine is used FOUR times as much now as ever. This is the cause that not only PHYSICIANS, but the public know it by experience, to be FAR the BEST, and therefore give it their united preference to any other preparation, or form of Sarsaparilla.
Kelley & Co.'s Sarsaparilla,
is so strong, and so certain to do good, but more than all, is known to have performed so many astonishing cures of DYSPEPSIA—of SCROFULA and of every form of RUN DOWN CONSTITUTION, that it has in spite of every opposition which self interest or malice could devise, won its way to the favor of PHYSICIANS and the public in SIX STATES of the UNION, in a very short time.
Try it! Try it! Let not the frequent disappointments which you meet with in the use of other articles, deprive you of the ALL HEALING, and HEALTH-RESTORING power of this MEDICINE!
Manufacturers and Proprietors,
JOSEL KELLEY & CO.,
Chemists and Druggists, 101 Middle St., Portland.
N. B. *One Quart of Water* may be added to a Bottle of this popular Medicine, and it will then be *stronger* than other preparations of Sarsaparilla.

SLATES.

ON and after the first of May next, good substantial Slates will be sold, delivered at the Quarry, at the very low price of Two Dollars per square of one hundred feet, and payment received for the same, either in Cash, good Produce, or hauling to Bangor, at the current rates. At this price, Slates are by far the cheapest covering that can be found for any building, even in this land of shingles, if durability and safety from fire be taken into account. As snow slides immediately from a slated roof, the strength of timber required in a roof is actually less for slates than for shingles.
For further information please inquire at the Quarry in Brownville, Piscataquis Co., of
WILLIAM HUGHES.

BAILEY'S COMPOUND
EXTRACT OF
SARSAPARILLA,
Prepared in a highly concentrated form.
THE subscriber, after numerous experiments, has adopted a method of preparing a COMPOUND EXTRACT OF SARSAPARILLA, by a new process by which the entire active principle of the root is extracted in a concentrated form.—This preparation has received highly flattering encomiums from the Medical Faculty, by many of whom it has been used with invariable success in the following diseases, viz: scald head, salt rheum, mercurial affections, old ulcers, rheumatism, and cutaneous eruptions generally, also in all disease and all impurities of the blood and obstructions of the secretions. The entire satisfaction given in all cases of trial, having produced a great demand for it, the subscriber is induced to CAUTION the public against imposition. The Compound Extract of Sarsaparilla as prepared by him, will in future have his seal on the cork of the bottle, with his signature, *Wm. Bailey.* None other is genuine.
WM. BAILEY.

Brooklyn, June 14th, 1844.
To Mr. Bailey, Proprietor of Bailey's Extract of Sarsaparilla.
I do hereby certify that during the past year I have been severely afflicted with a disease, which made its first appearance in sores in my mouth, afterwards spreading over my face, hands, arms, shoulders and legs, forming an entire scab. I received the attention of physicians, and used a great variety of remedies without receiving any visible benefit. My situation, already truly distressing, became worse and worse. Being very poor, and my husband being out of employment, I was under the necessity of applying to the Female Samaritan Society of Brooklyn for assistance, and through their kind aid and advice a physician, (Dr. Mosely) was enabled to obtain a supply of Bailey's Sarsaparilla. After using three bottles, I found myself entirely recovered. The sores have disappeared, and I now have the happiness of enjoying good health, and feel that I am perfectly cured.—That Bailey's Sarsaparilla restored me, I am certain, inasmuch as I used no other remedy from the time I commenced taking it. I feel that I could not do a better service to the public than thus publicly stating my case and recommending Bailey's Sarsaparilla to all that are in any way afflicted as I was. It is now two months since I got well, and my health was never better in my life than now.
MARY MAKIN,—Baltic street.

One of the proprietors of this paper, at the request of Mr Bailey, took some pains to ascertain the truth of the above statement. Several individuals acquainted with the case were applied to, among whom the physician who attended the lady's male giving the certificate. He unhesitatingly stated that the matters set forth were true. The disease, he said, was a most violent one, the woman being covered from head to foot, almost, with sores. That when applied to, he recommended a free use of Bailey's Sarsaparilla, which was furnished by the "Female Samaritan Society" of this city, as set forth; and to the surprise of all who are acquainted with the case, the woman entirely recovered after taking but three bottles. Such being the virtue of Sarsaparilla, it becomes every family to have a supply on hand, and on the first appearance of the symptoms of a disease arising from the impurity of the blood, let it be taken. The physician alluded to has recommended the Sarsaparilla in other cases with success, and considers it an invaluable medicine.
Any further comments would be superfluous.
Brooklyn Daily Advertiser.

JULES HAUEL'S
PREPARATIONS!
TRY THEM, AND JUDGE FOR YOURSELF!
TO THE PUBLIC.
Wonderful! That's Right—A proper Principle adopted.
YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them, and your money will be cheerfully refunded.—Remember, there is no quackery—or humbug—here. A trial will cost you nothing—as if any one is humbugged, it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles: First—
MY EAU LUSTRAL HAIR RESTORATIVE.
This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it unusually bright, and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from scurf and dandruff, and its effect in the restoration and growth of the hair is unequalled by any other preparation of the kind. Second—
MY EAU DIVINE DE VENUS AND NYMPH SOAP.
Composed of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion.
No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful; it removes all harshness, cleans the complexion, and leaves a delicate roseate hue that cannot be surpassed. Third—
MY SHAVING CREAM.
"It is a luxury to shave with Jules Hauel's Premium Cream."
This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather. It does not dry or smart the face; on the contrary, it is very soft and highly beautiful. No person will use any other, after once using this admired preparation. Fourth—
MY DEPILATORY POWDER.
This Powder has never failed to produce the desired effect. Its composition is infallible, and warranted to remove superfluous hair. Many ladies have used it, who were afflicted with hair on their skins of the face, arms, &c. giving a masculine turn to the features, and who testify of its happy effect. Fifth—
MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.
A Chemical Result to enable persons to dye their hair instantaneously, without the least inconvenience.
"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated Vegetable Liquid Hair Dye."
For changing red or grey hair, whiskers, eye-brows, &c. to a brown, black, or chestnut color. The slightest injury need not be feared from its use. It is altogether harmless. This composition is the only one sanctioned by the science of chemistry, to dye, in an indelible manner, the various gradations of color, without danger or inconvenience, and has justified the liberal patronage and unlimited confidence of the public.
☞ *Beware of Counterfeits!* Ask for "Jules Hauel's Vegetable Liquid Hair-Dye," if you want the genuine article. Sixth—
MY UNRIVALLED ROSE TOOTH PASTE.
Is universally sought after, for the pearly whiteness it gives to the Teeth, without the slightest injury.—Seventh—
MY CELEBRATED PERSIAN OR CHINESE POWDER,
Patronized by the Fashionable World of the United States, and under the immediate patronage of the Ladies.
This powder is unequalled for the nursery, for restoring, beautifying and preserving the complexion, rendering the skin delicately white, smooth and soft, preventing cutaneous eruptions, chapping, and obviating copious perspiration. The ladies and residents in warm climates will highly appreciate this grateful appendage to the toilet.
NINE HUNDRED DOLLARS REWARD
Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair-Dye* is not the best,—the very best yet known in this country or in Europe.—This valuable discovery will enable a person to dye instantaneously the hair or whiskers, in a few minutes without the least inconvenience. This preparation is warranted not to wash out, not to injure the health or the hair, and retains all its softness and brilliancy.
From a celebrated Chemist of the City of Philadelphia.
"Dear Sir:—It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair-Restorative.* I have been surprised by its wonderful and beneficial results, and have no hesitation in saying, that I believe it to be the most positive and extraordinary discovery ever known for restoring and reproducing a fine and luxuriant head of hair. In regard to the *Nymph Soap, Hair-Dye, Rose Tooth Paste, Depilatory Powder,* and *Shaving Cream,* I must say that they are scientifically compounded, and that it is a real luxury to use them. Yours, &c.
JOHN FARR, Chemist,
President of the Manufacturers' and Mechanics' Bank, Philadelphia.
Mr. JULES HAUEL."
Try it! Try it! It is furnished Gratis!
The most positive and convincing proof of the superiority of my articles depends on the favor and satisfaction it has received from those who have used it.—With respect to my *Shaving Cream,* it is always used with satisfaction, and has everywhere met with general approbation.
Those persons who have not made use of this delightful preparation may, by calling at the Store of the Proprietor, No. 120 CHESTNUT Street, receive, without charge, a small box for trial, as I am desirous to let all try it and judge for themselves.
Prepared and sold, *Wholesale and Retail,* by JULES HAUEL, Practical Chemist and Perfumer.
An Extract from the Report of the Judges of the "Franklin Institute of Pennsylvania."
"After a minute and careful examination of the preparations submitted to our notice by Jules Hauel, Chemist and Perfumer, of the city of Philadelphia, we do not hesitate to pronounce them truly valuable preparations, well calculated for the toilet."
READ THE CERTIFICATE!
"The Franklin Institute, of the State of Pennsylvania, for the Promotion of the Mechanic Arts, have awarded to Jules Hauel, of Philadelphia, their Testimonial of their approbation for the skill and ingenuity displayed in the manufacturing of his celebrated Eau Lustral Hair Restorative, and other perfumery, deposited at their late Exhibition of Domestic Manufactures in the city of Philadelphia.
(Signed) J. V. MERRICK, President.
J. SMITH LUKENS, } Vice-Presidents.
TILGH. FLETCHER, }
I. E. GARRIGUES, Rec. Secretary."
From CONSTANT GUILLOU, Esq., Attorney at Law, and Notary Public, Philadelphia.
"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of them in my own family, and some of them personally; I have more than realized those favorable anticipations;—they are, what they profess to be, scientifically prepared and compounded. I have at all times given my experience been convinced of the great merits of the *Eau Lustral Hair-Restorative, Shaving Cream, Nymph Soap,* and, in fact, all the popular preparations of Mr. Hauel.
It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.
CONSTANT GUILLOU."
From DANIEL J. DESMOND, Esq., Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria, Sardinia, Portugal and Tuscany.
"To Mr. JULES HAUEL.
Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different toilet preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skillfully prepared and compounded. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste.—I am fully satisfied of their intrinsic worth, and heartily recommend them all for the use and purpose they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates equally upon the pores of the skin, and cleanses it from all impurities. The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way invaluable.
"I have used some of my friends who have used your Vegetable Liquid Hair Dye; its effect is really a wonder. It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful, and none will detect the artificial colors, as it has no natural. Yours, &c.
DANIEL J. DESMOND.
Philadelphia, March 20, 1847."
Sold wholesale and retail by JULES HAUEL, Perfumer and Chemist, No. 46 South Third St., Philadelphia; and in Bangor by G. W. LADD, G. F. SARGENT and S. ALDEN, Druggists, and H. F. SPERRY, Fancy Goods dealer. 4m6wly June 11.

THE GRAEFENBERG PILLS.
THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be made the means of incalculable and enduring blessings to the human family. Suppose, for example, that a high order of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the exercise of similar talents and toil in other things? There is no reason; and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man. *Twenty-five years devotion* to any one subject will give a man of ability the mastery over it. This labor has been bestowed upon the
Graefenberg Vegetable Pills
and they are presented to the public with claims unparalleled in the whole history of medical science.
It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The mariner's compass, for instance, was not invented until in the "fulness of time" it was needed. The loadstone always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled. He held it now transferred to the bosom of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land-marks!
So with the discovery of the New World, upon whose shores was to arise, in this "fulness of time," a power, a glory, a mission far beyond the conception of the wildest fancy. The Old World had reached its highest destiny: the "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus, from the forecastle of his daunchial and leaky vessel found it! So with the invention of printing, of steam, of the magnetic telegraph. Each of these had its own "fulness of time," marked, distinct and Providential!
☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. [illegible] We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand!
That this principle is as true of Medical as of Physical science, is clearly shown in the
GRAEFENBERG GAZETTE,
which is furnished gratuitously to all who wish it.—The
Graefenberg Pills,
are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations, and discoveries hitherto known, and they are announced as
THE GREAT REMEDIAL TRIUMPH.
The inventor of these Pills rests his theory upon no school nor dogma of ordinary medical teachers. Placing himself upon the revelation of the
ALMIGHTY CREATOR,
that
"THE BLOOD IS THE LIFE,"
he requires that his disciples and his patients *make pure* the life current that leaps through their veins and arteries, before they can hope for a PERMANENT cure. Relief can give them, and we can others; but bright and joyous health must come from a pure blood.
But a most and thought have come in! So countless are the impositions which are practised upon the public by pretenders, and so numerous and boastful are the medicines advertised, that the public mind is slow to believe in this Great Remedy. A word, therefore, on this point.
In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may be, that paper will convince you. Thousands have been convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, clergymen, physicians, civilians. The bare enumeration of their names would fill its page. Let the reader send to the most convenient agency for a copy of the Gazette, which can be had
GRATIS!!
In the second place, TRY THE PILLS. It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the end of your days!
A thousand things press upon the minds of the advertiser which he would rejoice to say to his reader, but the limits of this advertisement forbid. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED!

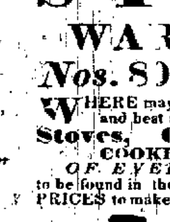

Asthma,	*Flatulency,*
Bilious Complaints,	*Fluor Albus, or Whites,*

	Whites.

In all bilious or chronic disorders, these Pills achieve the most wonderful triumph. HERE THEY KEEP COMPLETE. [illegible] the American constitution is to these diseases, they are aptly styled
The Pill of the New World.
Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES: CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS: MAKE THE URINE FLOW HEALTHILY AND CLEAR: AND TO GIVE TONE AND STRENGTH TO THE SYSTEM.
It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills. [illegible]
☞ NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented; but a certificate in these days is seldom worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however, be given.
[illegible]
FROM TOLEDO, OHIO:
"Having heard so much, and witnessed two or three cases treated in the mode directed by your Journal, I have thought it important you should have an agent at this place. In my opinion, more good can be done in this bilious climate by your medicine, than by the old modes.
I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success."
FROM A DISTINGUISHED GENTLEMAN OF BOSTON:
Gentlemen,
"I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered more from constipation, which has disarranged my whole system and I have not known a day's good health for many years past and being an old man, I despaired of ever again enjoying life; but a friend recommended me to try your Pills, which I did, although without any confidence, and I am happy to inform you, has far exceeded my expectations, the cause of my suffering is removed, and I feel my health and strength daily increasing. I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day."
FROM JUDGE ———, OF GEORGIA:
Sirs,
Since writing to you last upon the subject of my ill-health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt, I shall bless the day you sent them. I need not allude again to the sufferings I have endured, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures."
FROM AN EPISCOPAL BISHOP.
Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made, in the production of your Pills. I was induced to try them, from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be arrived at. My complaint has been that of the Liver, from which I despaired of getting better; but since taking your Pills, I find my general health improved and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when needed. With great consideration and gratitude, I am, &c."
From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts. ONCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS.
WHOLESALE WAREHOUSE,
49 John Street, New York.
☞ In towns where there is no branch, the Company will appoint one on application by letter, (post paid) or otherwise.
☞ Persons wishing the Pills sent by mail, can order them.
OTIS BROADERS & CO., *Boston,* General Agents for the States of Massachusetts, Rhode Island, New-Hampshire and Maine.

FURNITURE and CHAIRS.
. Paints, Oils, Japan, Varnishes and mixed Paint, in large or small quantities, to suit customers. Glass, Putty, etc.
Bangor, May 20, 1847. 6w

RUST PROOF IRON,
FOR
ROOFING, WINDOW SHUTTERS, &c.
THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metalic and other substances hitherto used, for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc, &c, or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more.
The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which Iron thus protected, can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.
Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c, they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe,) constantly on hand, from 16 to 32 wire guage.
GEO. B. MOREWOOD & CO.,
Nos. 14 and 16 Beaver-st., New York.
The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise.

READ THE FOLLOWING.
From the "Western Star," a religious periodical, published at Jacksonville, Illinois.
"DOWNS' VEGETABLE BALSAMIC ELIXIR.—We are not in the habit of puffing medicines in our columns, but having used the above medicine in our family with gratifying success, and being persuaded from all we can learn concerning it, that it is an excellent medicine for Coughs, Colds, Consumptions, Whooping Cough, Asthma, and diseases of the Chest and Lungs, we do not hesitate to give it a cordial notice.
Elder Downs, an acquaintance of ours, was himself an invalid for a long time, and was thought to be far gone with the consumption, a disease hereditary in his father's family. This remedy was the means of restoring his own health, and multitudes have testified to its salutary effects upon themselves and families."
From the Missisco (Canada) Post, of April 5, 1846.
"REV. N. H. DOWNS' VEGETABLE BALSAMIC ELIXIR, for all diseases of the Chest and Lungs.—From the abundant testimonials of those who have made use of this preparation, we can recommend it to the public with the utmost confidence in its ground of efficacy. The great danger, also, of neglecting complaints incident to the chest and lungs, should persuade every person subject to such complaints to possess themselves of this valuable remedy."
Sold in Bangor by D. BUGBEE and G. W. LADD, of whom pamphlets may be had giving a full description of the medicine. 3tawd&wistm. dec. 24

BANGO

BY SMITH & SAYWARD.

Bangor Daily Whig and Courier
IS PUBLISHED
[illegible] the Kenduskeag Market, at **Four Dollars** a year, payable half-yearly in advance. All subscriptions for less than a year to be paid in advance—orders for discontinuance must be accompanied by the amount due.

LEONARD SCOTT & CO.'S
LIST OF
Foreign Periodicals.
THE LONDON QUARTERLY REVIEW,
THE EDINBURGH REVIEW,
THE WESTMINSTER REVIEW,
THE NORTH BRITISH REVIEW,—AND
BLACKWOOD'S EDINBURGH MAGAZINE
The above Periodicals are reprinted in New York, immediately on their arrival by the British Steamers, in a beautiful clear type, of fine white paper, and are faithful copies of the originals—Blackwood's Magazine being an exact *fac-simile* of the Edinburgh edition.
The prices of the Re-prints are less than one-third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the *American* over the *English* reader.
TERMS.
PAYMENT TO BE MADE IN ADVANCE.

For any one of the four Reviews,	$3,00	per annum.
For any two	do 5.00	"
For any three	do 7.00	"
For all four of the Reviews,	8,00	"
For Blackwood's Magazine,	3.00	"
For Blackwood and the 4 Reviews,	10,00	"

Remittances and Communications must be made, in all cases, without expense to the Publishers.—The former may always be done through a Post-master, by handing him the amount to be remitted, taking his receipt, and forwarding the receipt by mail, post paid; or the money may be enclosed in a letter, *post paid,* directed to the publishers.
. All communications should be addressed (post paid,) to
